London, Aug. 10 .- "I am going to retire from the interviewing business permanently," said United States Senator Chauncey M. Depew to a representative of the Associated Press today. The fact is that American prosperity is now so great that nothing but a revolution can stop it and nothing can produce a revolution.

"I have been seriously misquoted in an American paper concerning the ef-forts of European governments to off-set American inroads into their trade and manufactures. My observation of this movement leads to the conclusion that while the European governments view with alarm the increasing inroads of American products, it is impossible that they should successfully combine

UNIONIST LOVE FEAST.

Celebrate Result of Elections at Blenheim Yesterday.

London, Aug. 10.-The great unionist celebration at Blenheim today was facored by the most pleasant weather. Its object was to celebrate the third union-ist victory in the by-elections. One hun-dred and twenty members of parliament were present, with some 3,000 delegates from conservative and liberal unionist y secciations throughout the country, and others present made a total of about 7,000 persons. Mr. Balfour and Mr. Chamberlain delivered addresses after luncheon in the open air. Both were accorded a warm reception from the enthusiastic crowd.

warm reception from the enthusiastic crowd.
During the course of his remarks, Mr. Balfour said that the erstwhile conference between the conservatives and liberai-unionlasts was now an indissoluble union. A large section of the opposition was avowedly unpatriotic and the country was not so meenstruck as to confide the conduct of public affairs to those who, so far as they had uttered any clear note, had uttered it against their own country. Mr. Balfour proceeded to compare the opposition tactics to the sniping, guerrilla warfare in South Africa and said both would end at no distant date.

Mr. Chamberlain spoke in a similar vein. He said the alliance of the parties had resulted in building up a truly national party. The liberal party was now only the "rump" party. They had sunk in the pro-Boer mud so deep that not even the liberal imperialists could extricate them. Even the latter were not free from heiesies and until they were free, the unionist party did not want this communion.

Lively Fistic Battle Occurs on Main Street Last Night.

A long-haired canine was the cause of a lively fistic fracas on the corner of Main and Second South streets early this morning, in which J. H. Bennett, a collector, and Joe Colinsky, the Turkish bath man, were the principal figures. According to the statement of Officer Roberts, who witnessed the affair, Bennett seized the canine which belonged to Colinsky by the nape of the pup, and he did, but immediately landed his fist on Colinsky's face. Colmsky obeyed the Biblical injunction by turning the other cheek just in time to receive a stiff blow from a friend of Bennett.

To make the odds even Will Bess, a friend of Colinsky, stepped up and landed a blow on the head of Bennett that sent him spinning to the sidewalk and brought blood from his scalp. At that juncture Officers Roberts and wanted to make any complaint, and they were all allowed to go.
